MUZA
TERPENE RICH BLEND

Official Product Notice: MUZA Hemp Material Variation

At MUZA Blends, we are committed to transparency, quality, and responsible manufacturing. We would like to inform our customers about the natural characteristics of our Hemp material used in the different MUZA Hemp products.

MUZA Hemp products are made from reconstituted hemp, a natural, plant-based material. Due to the nature of hemp fibers and sustainable production methods, variations in thickness, diameter, texture, and appearance may occur, including within the same package.

These variations are normal and expected and do not affect the product's quality or intended use. Each product meets applicable quality and safety standards.

Important Information for Consumers:

- Natural material variations are inherent to our reconstituted hemp
- Size and thickness may vary within a single pack
- Visual or dimensional differences do not indicate a defect
- Product performance and quality remain consistent

For questions or additional information, please contact our customer support team.

Disclaimer: Muza Hemp products are manufactured using natural, reconstituted hemp. Variations in thickness, diameter, texture, and appearance are inherent to the material and manufacturing process and do not constitute a defect. Product appearance may vary from images shown. Muza Blends makes no guarantees of uniformity beyond applicable quality standards. This product is not intended to diagnose, treat, cure, or prevent any disease. By purchasing and using this product, the consumer acknowledges and accepts these natural variations.
